Enforcement of Biocidal Products - Final Decision and Case Closure

The Icelandic Environment and Energy Agency (Umhverfis- og orkustofnun) refers to its letter dated 19 February 2026 regarding inspection findings and requirements for corrective actions concerning the biocidal product LuxSpray 50.

The authorisation holder, GEA Farm Technologies GmbH, has submitted an updated label and safety data sheet for the biocidal product. The Agency hereby approves the submitted label and confirms that no further action is required. The case is therefore considered closed.

A fee for the enforcement activities will be collected in accordance with Article 22 of the Agency's list of fees No 1033/2025 and Article 54(2) of the Icelandic Chemicals Act No 61/2013. An invoice will be issued in the amount of ISK 67.200 (approx. EUR 485).

If further information is required, please contact us via email (hafdis.i.ingvarsdottir@uos.is or bergdis.b.baeringsdottir@uos.is).

Yours sincerely,

Hafdís Inga Ingvarsdóttir
Chemicals Unit
